

## Fragments Vol 2 – GEOSynths.

Thank you for purchasing this SoundSet from GEOSynths, I hope you have fun with the sounds and use them into your compositions, as well as live.

Fragments Vol 2 contains 64 new Patches for both the Hardware and the Software Plug-In and uses some of the latest Functions added with V3. In the Demo the Audio is coming from the Plug-In, not the Hardware, though there really is very little difference, if any. There are Motion Pad's & Dynamic Strings, Thunderous Bass & Cutting Leads, Vintage Polys and Keys, creative Arps & FX, plus a whole lot more.

I have added a Video (for Vol 1, but the same for Vol 2) which shows the process, which is really simple when it comes to loading into the Software.

Here I show:

1. Load the Patches into MiniFreak V Software.
2. Create a Back Up to send to the Hardware.
3. Include the Factory (or your own) Patches as well for the Hardware.
