## **Evolution Vol 2 – GEOSynths.**

Thank you for purchasing this SoundSet from GEOSynths, I hope you have fun with the sounds and use them into your compositions, as well as live. It has been a pleasure making these Patches with the DSI OB6 again, which is an absolute marvel of a Synthesizer.

The previous set I made 'Evolution Vol 1' has been well received and I've had a lot of great comments and people sending me their compositions using the patches, great stuff, keep it coming.

I just want to point out that I make my patches from initialised sounds and only use the front panel of the Synth. The only 'software' I use is a website called 'Laser Mammoth' which is an online Librarian for many Synths, to name my Patches.

I hope you enjoy these Patches as much as I did making them and I hope to make many more in the future.

All the best,

GEOSynths (info@geosynths.com) www.geosynths.com

## **Tips and Tricks**

I've tried to Program in movement throughout the Sustain Stage, to make the sound more interesting. Added to this, Aftertouch plays an important role in sculpting the sound while you play.

I've used a Ring Modulator with a '0' setting for some patches as it affects the tone, though on a couple of Patches, it can cancel out the lower frequencies. This must be something to do with the nature of Ring Modulators or DSI's implementation of it.

Most of the Arpeggio's have synchronised FX and LFO rates, so you can lock with your track.

I've not used the Sequencer really, only on the first Patch.

## Installation

Please see the OB6 Manual on page 59. Patches are from 400 to 499 and when loaded in will replace what you already have there, so make a back up of your Sounds first. I have included the sysex for 1 full Bank and each sound individually to make it easier for auditioning. If you load in Patch 16 for example, it will be placed at 416, you can then save it to your preferred location.

Patch Name	Туре	Description
00_Duran_GEO	Arp	You'll know it, just hit the sequence button.

02_My_Queen_GEO	Bass/Arp	Close attempt of the infamous intro.
03 Tom GEO	Bass	Tom Sawyer Patch
04_Gazza_GEO	Strings	Vox Humana.
05_Layer_Pad_GEO	Pad	Nice and gurgling sound with Mod Wheel
		dramatically changing into a Rhythm.
06 Crossover Pad GEO	Pad	Pad that sweeps through all Filter Modes
07_Jump_GEO	Brass	Sorry, I had to do it!
08_60's_SciFi_GEO	Keys	Reminded me of old 60's Sci-Fi. Aftertouch
	,	makes it brighter.
09_1984_GEO	Lead/Keys	Is 80's all over, Mod Wheel brings in slight
	, ,	variation.
10_Filter_Sync_GEO	Lead	Sync Lead, with Aftertouch that can be used like
		Wah Wah
11_Hypiano_GEO	Keys	Very weird Keys sound, lots of delays, but hold
		down and use Aftertouch to bring in
		Padsometimes it works, sometimes not.
12_Oui_GEO	Lead	Vocal Lead Sound, use Mod Wheel for vowel
		changes.
13_Express_Lead_GEO	Lead	Very expressive Lead, quite Brassy and with a
		bit of Mod Wheel vibrato and aftertouch Filter
		control.
14_Sweeping_GEO	Pad/Strings	Beautiful, slow swept String Pad
15_Sweep_Signal_GEO	Pad/Strings	A resonant Pad/Strings that slowly sweeps
		rhythmically, lots of texture.
16_New_Wave_GEO	Arp	Nice, Synthetic, 80's Arp.
17_Soft_Piano_GEO	Keys	Unique Piano Pad with lots of character.
18_Creamy_Pad_GEO	Pad	Just hold it and smile.
19_String_Pad_GEO	String	Slow and evolving.

24 Av. 5'lb v 650	A	reverb on if you can.
21_Arp_Filter_GEO	Arp	Arp that randomly moves through the Filter Modes
22 150 5	Dod	Hard to describe, bubbling LFO Pad?
22_LFO_Express_GEO	Pad	Reminds me of the Bass sounds in early
23_Electro_Bass_GEO	Bass	Electrowhen I used to spin on my Back!
24_Synth_Ice_GEO	Kovs	Coldish Synth Piano can be Lead also.
25_Pitched_Pad_GEO	Keys Pad	Pitched Oscillator at different interval, spreads
23_Fitcheu_Fau_GEO	rau	out the Pad pitches.
26_Static_Keys_GEO	FX	Can be used with the Arp, but I like it as FX as it
	' '	has a static, dusty quality to it.
27_China_Arp_GEO	Arp	Just play a Triad (No pun intended) with a root
		note and then use the Wheel to enhance
		slightly.
28_Key_Cutter_GEO	Keys	Cuts through any mix, thin, sharp Piano keys.
29_Karplus_B_GEO	FX	Attempting Karplus Strong with the DDL, seems
		to do more on the B notes for some reason '?'
30_Morse_Arp_GEO	Arp	Metallic and full sounding LFO driven Rhythm,
	,	can be used as a Lead Line or Bass. Aftertouch
		to remove Rhythm. One of my Favourites!
31_Sweeping_LFO_GEO	Poly	LFO for main Rhythm and Ring Mod at slow
	-	speed for second Rhythm and then Filter Sweep
	1	

22 Interference 2   055	D- 4/C: :	Harrist Ded On A Co. C. C. C.
32_Interference_Pad_GEO	Pad/String	Uncontrolled Pad, use Aftertouch to make it
		crazier, lovely tones though. Mod Wheel makes
		it worse/better?
33_Chorus_Bass_GEO	Bass	Good for Bass Lines with held note or New Wave type of Music.
34_Ring_Leader_GEO	Lead	Ring Mod Lead Sound, can get a little 'vocal' at
		times and Mod Wheel takes it somewhere else.
35_Pure_Strings_GEO	Strings	Simple, clean and pure Strings, just to float
		above a dark Pad or full BassHeaven!.
36_Fuzzy_Piano_GEO	Keys	Bright and Bold Piano with a Fizzy front end,
		due to X-Mod. Mod Wheel makes it
		unlistenable.
37_Kaleidoscope_GEO	Arp	Bright, in your face, reminded me of a Carousel
	·	with lots of coloursNo, I don't take Drugs!
38_Evolution_GEO	Strings	Slow evolving Strings, keep chord held down for
		low-end sweep up.
39_Evolved_GEO	Strings	Sums up my favourite types of sounds. Nice,
		filtered down with lots of resonance.
40_You_What?_GEO	FX	Sounds like a naff Sci-Fi Robot.
41 Warm LFO GEO	Pad/Lead	Works mainly as a Pad but is quite a good Lead,
		for a 'broken' up sound.
42_Karplus_Klang_GEO	FX	More experiments with the DDL, for a weird
0_		type of Sitar/Bell and becomes more of an
		effect with the Mod WheelNot sure how it
		would be used, but was interesting to make.
43_Twin_Peaks_GEO	Keys	Nice, thick and rich Piano type sound, lower
	,	register reminded me of 'Twin Peaks' Theme
		(unintentional).
AA Namaama Darra CCO	Arp	Like a Kids Toy, especially with aftertouch
